

REMARKS

Claims 1 and 12 have been amended without prejudice.

The office rejected claims 1-6, 8-15 and 17-19 under 35 U.S.C. 102(e) as being anticipated by Restarick et al. (USP 6,684,951). As noted by the examiner on page 6 of the office action, Restarick shows the width of a flange extends perpendicularly to an axis, not the length. Accordingly, the Applicants have amended claims 1 and 12 to include that “a length of the flange extends perpendicularly from the axis of the receptacle.” The Applicants feel that since this limitation is not shown or discussed in Restarick that claims 1 and 12 are now allowable over Restarick. Since claims 2-6 and 8-11 depend from now allowable base claim 1, and since claims 13-15 and 17-19 depend from now allowable base claim 12, the Applicants respectfully submit that claims 2-6, 8-11, 13-15, and 17-19 are now also allowable.

The Office rejected claims 7 and 16 under 35 U.S.C. 103(a) as being unpatentable over Restarick et al. Since claims 7 depends from now allowable base claim 1 and since claim 16 depends from now allowable base claim 12, the Applicants respectfully submit that claims 7 and 16 are allowable over Restarick.

The Applicants respectfully request that this amendment be entered and considered since the amendment puts the application in condition for allowance. Accordingly, Applicants respectfully request that a timely Notice of Allowance be issued in this case.

Applicants believe that there are no fees due at this time, however, as indicated in the previous response, the Commissioner is authorized to charge any fees that may be required at any time during the

prosecution of this application without specific authorization or credit any overpayment, to Deposit Account 180584. If there are any questions concerning the above, please contact the undersigned at 801-472-1623.

Respectfully submitted,

/Tyson J. Wilde/
